

HOW THE WOOD BANK Works

Turning community **generosity**
into **heat** for neighbors who need help.

1

WHY DO WE PROVIDE FIREWOOD?

Bethel Wood Bank provides **supplemental heating assistance** to local households that need help staying warm.

2

WHO DO WE HELP?

Neighbors experiencing **fuel insecurity** who may struggle to afford adequate home heating.

3

HOW MUCH HELP IS PROVIDED?

BWB provides **limited, supplemental** firewood assistance—not a household's entire seasonal supply.

4

WHERE DOES THE WOOD COME FROM?

Donated hardwood logs are transformed into usable firewood through **community generosity** and volunteer labor.

5

WHY DON'T WE SELL IT?

Our mission is **heating assistance**. Donated resources and volunteer effort are converted directly into heat for neighbors.

6

IS THE FIREWOOD READY TO BURN?

Yes. We **season** and **moisture-test** our firewood before releasing it for distribution.

7

HOW DOES SOMEONE GET HELP?

Households can contact BWB directly or be connected through trusted community **referral partners**.

8

HOW CAN I HELP?

Donate hardwood logs, **volunteer** your time, **contribute** financially, become a business partner—or help **connect** someone who needs assistance.
